

Compressed-Gas DUSTER Instant Dust Remover

Hundreds of Everyday Uses!

Inhalant abuse deterrent formulation

NET WT 10OZ 283g 312ml

CAUTION: CONTENTS UNDER PRESSURE.

Daily Cleaning Uses Include:

- Home and Office Electronics
- Household Cleaning
- Arts & Crafts
- Automobiles
- DIY Projects

Usage Guidelines:

1. Remove safety tab on nozzle.
2. **DO NOT SHAKE!** Keep can upright.
3. Clear nozzle by pointing toward open area and pulling trigger quickly 3 times.
4. Hold nozzle 3-4" away from object.
5. Pull trigger in series of short, 2-3 second blasts.
 - A proper pressurized blast will be invisible when dispensed from the nozzle.
 - A visible, white blast means the product is dispensed improperly.
6. Clean away!

Important Usage Information

- **NEVER** shake or tilt can before usage. Use in upright position only.
- **NEVER** use near a potential ignition source.
- **NEVER** spray into an enclosed space, such as a trash can or paper shredder.
- **AVOID** skin contact with product in liquid form, may cause frostbite.
- **AVOID** contact with product in liquid form, may cause plastic to discolor.

Did You Know:

A 10oz can has an average of 120 2-3 second blasts under normal conditions. Because the content of the can is chemically based it will get very cold during use. This is normal. When product returns to room temperature, use it again.

DO NOT SHAKE! DO NOT SHAKE!

Used as intended, this product poses no health hazards. Intentional misuse or abuse of this product poses serious health hazards and can be fatal.

CAUTION: KEEP OUT OF REACH OF CHILDREN. THE INTENTIONAL MISUSE BY DELIBERATELY INHALING CONTENTS MAY BE FATAL. Use in well-ventilated area. **THIS PRODUCT CAN BE IGNITED UNDER CERTAIN CIRCUMSTANCES.** Therefore, **DO NOT** use near potential ignition sources, hot surfaces, or spark-producing equipment such as paper shredders or under electrical appliances. **DO NOT** tilt, shake, or turn can upside down before or during use as liquid contents may be dispensed. Liquid contents may cause frostbite on contact with skin. Contact physician if such contact occurs. Store in cool place. **DO NOT** leave in direct sunlight, enclosed vehicle, or expose to temperatures above 120°F (49°C), as overheating could cause can to burst. **DO NOT** pierce or burn, even after use. Contains difluoroethane. CAS #75-37-6.

Inhalant Abuse Public Safety Announcement:

This product contains a bittering agent to help discourage inhalant abuse. The misuse and abuse of this product by deliberately concentrating and inhaling the chemical contents presents a serious health hazard and can result in fatality. Please use this product as it was intended and responsibly. For more information on the hazards of inhalant abuse and how to help prevent it visit:
